

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Vontobel

Bond Global Aggregate

ISIN	LU1112750929
Share Class	B
Currency	EUR

a sub-fund of Vontobel Fund

This fund is managed by Vontobel Asset Management S.A., which is part of Vontobel Group.

This fund is authorised in Luxembourg and regulated by the Commission de Surveillance du Secteur Financier (CSSF).

Objectives and investment policy

This actively managed sub-fund aims to outperform its benchmark (Bloomberg Barclays Global Aggregate Bond Index (EUR Hedged)) over a rolling three-year investment cycle, while aiming to achieve a positive absolute performance over the same cycle.

- It mainly invests in fixed income instruments. A maximum of 40% of the sub-fund assets may be invested in non-OECD countries; up to 20% in asset-backed and mortgage-backed securities; up to 15% in contingent convertible bonds (CoCo-bonds); and 10% in distressed securities. The sub-fund also invests indirectly via derivatives into fixed income instruments. Cash may also be held.
- It mainly invests in securities issued or guaranteed by national, supranational or corporate issuers. A maximum of 25% may be invested in corporate bonds with a lower credit rating and of a speculative nature (high yield); 15% in convertible bonds.

- The sub-fund engages active strategies, partly by using derivatives, in order to manage exposures in interest rates, credit, emerging markets, currencies, and volatility and to seek to generate investment returns.
- The sub-fund is managed with reference to a benchmark by aiming to outperform it and provide a positive return over a rolling three-year period. The portfolio manager has full investment discretion within the predefined investment limits.
- Any income generated will be reinvested and included in the value of your shares.
- Buying and selling securities entails transaction costs payable in addition to the charges listed.
- Redemption of shares: daily when banks in Luxembourg are open for normal business (see prospectus for details and exceptions).

Risk and reward profile

The indicator above does not signal the risk of a potential loss, but indicates the fluctuations in the sub-fund's share price in the past.

- The share class is assigned to this category because its share price can fluctuate sharply due to the investment policy applied.
- The historical data used to calculate the profile cannot be used as a reliable guide to the future risk profile of the sub-fund.
- The risk category shown is not guaranteed and may change.
- Even the lowest risk category is not entirely free of risk.

When assigning a sub-fund's share class to a risk category, it may be the case that not all risks are taken into account. Such risks include risks in connection with exceptional market events, operational errors, legal and political events. You can find a detailed list of the risks in the "Notice regarding special risks" section in the general part of the sales prospectus. The following risks have no direct influence on this category, but may still be important:

- Securities with a lower credit quality means a higher risk that an issuer may fail to meet its obligations. The investment value may fall

if an issuer's credit rating is downgraded.

- The sub-fund entails a higher degree of liquidity risk, because lower trading volumes on capital markets can lead to a situation where securities cannot be sold at all or can only be sold at less favorable terms.
- Using derivatives creates significant leverage and entails valuation risks and operational risks. Leverage magnifies gains but also losses. Over-the-counter derivatives involve corresponding counterparty risks.
- Asset-backed and mortgage-backed securities, and their underlying receivables are often intransparent. The sub-fund may also be subject to a higher credit and/or prepayment risk.
- CoCo-Bonds may entail significant risks such as coupon cancellation risk, capital structure inversion risk, call extension risk.
- Distressed securities have a higher credit and liquidity risk as well as uncertainty in any potential bankruptcy proceedings.
- The overall strategy may be volatile and the risk of a substantial loss cannot be ruled out. Active currency and volatility trading may be very speculative. The leverage achieved for investment purposes in the Sub-Fund through the use of derivative financial instruments is calculated using the notional approach. The sum of notionals leverage achieved over the course of the year is expected to be around 700% or less of the net assets of the Sub-Fund. However, the actual sum of notionals leverage achieved on average may be above or below this value.

Charges

The charges you pay are used to pay the costs of running the fund, including the costs for managing, marketing and distributing it. These charges reduce the return on your investment.

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry charge	5.00%
Exit charge	0.30%
Conversion fee	1.00%

This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.

CHARGES TAKEN FROM THE FUND OVER A YEAR

Ongoing charges	1.11%
------------------------	-------

CHARGES TAKEN FROM THE FUND UNDER CERTAIN SPECIFIC CONDITIONS

Performance fee

20.00% per year of each return posted by the fund that is above the benchmark (Bloomberg Barclays Global Aggregate Index (EUR Hedged)). 0.20% of the net asset value of the share class was paid out for the past financial year.

Past performance

The chart shows past performance based on full calendar years. One-off charges are not included when calculating performance.

- Past performance is not an indicator of current or future returns.
- The stated performance of the share class includes ongoing charges, but excludes one-off charges.
- Shares were first issued for this share class in 2014. Sub-fund launch year: 1991.
- The share class uses the benchmark Bloomberg Barclays Global Aggregate Index (EUR Hedged) also for as hurdle rate for the calculation of its performance fee.
- Past performance is shown in the currency of the share class (EUR).

The one-off charges shown are maximum figures. In some cases, you might pay less – you can find this out from your financial advisor.

The figure for ongoing charges is based on the past twelve months as at 28/02/2021. This figure may vary from year to year. It does not include:

- Performance fee
- The fund's transaction costs except for those paid by the fund when buying or selling shares of other collective investment schemes.

You can find more information on costs in the "Fees and expenses" section of the general part of the sales prospectus, available at www.vontobel.com/AM.
