## What is this product?

**Type:** Shares of a Sub-Fund of MULTI UNITS LUXEMBOURG, a SICAV.

**Term:** The term of the Sub-Fund is unlimited. The Management Company may terminate the fund by liquidation or merger with another fund in accordance with legal requirements.

**Objectives:** The Fund is an Index UCITS passively managed.

The investment objective of Fund is to reflect the performance of the Bloomberg Barclays Euro Treasury 50bn 1-3 Year Bond Index (the Benchmark Index") denominated in Euros, while minimizing the volatility of the difference between the return of the Sub-Fund and the return of the Benchmark Index (the "Tracking Error").

The Bloomberg Barclays Euro Treasury 50bn 1-3 Year Bond Index consists of fixed-rate, investment grade public obligations of the sovereign countries participating in the European Monetary Union. Only bonds denominated in euros with a maturity between 1 and up to (but not including) 3 years are included.

The anticipated level of Tracking Error in normal market conditions is indicated in the prospectus.

Additional information about the Benchmark Index can be found at <https://www.bloomberg.com/professional/product/indices/bloomberg-barclays-indices/>.

The Benchmark Index is a net total return index. A net total return index calculates the performance of the index constituents on the basis that any dividends or distributions are included in the index returns after withholding tax retention.

The Fund seeks to achieve its objective via a direct replication, by investing primarily in the securities comprising the Benchmark Index.

To optimize the Benchmark Index replication, the Fund may use a sampling replication strategy, and may also engage in securities lending.

The potential use of these techniques is published on Lyxor's website:

[www.lyxoretf.com](http://www.lyxoretf.com). Updated composition of the Fund holdings is available on [www.lyxoretf.com](http://www.lyxoretf.com).

In addition, the indicative net asset value is published on the Reuters and Bloomberg pages of the Fund, and might also be mentioned on the websites of the stock exchanges where the Fund is listed.

**Intended Retail Investor:** This product is intended for investors, with a basic knowledge of and no or limited experience of investing in funds seeking to preserve some or all of the capital invested over the recommended holding period and who are prepared to take on a high level of risk to their original capital.

**Redemption and Dealing:** Shares may be sold (redeemed) as stated in the prospectus at the respective dealing price (net asset value). Further details are provided in the MULTI UNITS LUXEMBOURG prospectus.

As this is a non-distributing share class, investment income is reinvested. the accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

**More Information:** You may get further information about the Sub-Fund, including the prospectus, and financial reports which are available at and free of charge on request from: Amundi Asset Management at 91-93 boulevard Pasteur, 75015 Paris, France.

The Net Asset Value of the Sub-Fund is available on [www.amundi.lu](http://www.amundi.lu).

**Depository:** Societe Generale Luxembourg.

**Representative in Switzerland:** Société Générale, Paris, Zurich Branch .

**Paying agent in Switzerland:** Société Générale, Paris, Zurich Branch.

In Switzerland, the prospectus, the key investor information document, articles, annual and semi-annual reports of the UCITS may be obtained in French, free of charge, at the representative in Switzerland.

## What are the risks and what could I get in return?

### RISK INDICATOR

Lower Risk

Higher Risk

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movement in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact our capacity to pay you.

Additional risks: Market liquidity risk could amplify the variation of product performances.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Beside the risks included in the risk indicator, other risks may affect the Sub-Fund's performance. Please refer to the MULTI UNITS LUXEMBOURG prospectus.

### PERFORMANCE SCENARIOS

## What happens if Amundi Asset Management is unable to pay out?

A separate pool of assets is invested and maintained for each Sub-Fund of MULTI UNITS LUXEMBOURG. The assets and liabilities of the Sub-Fund are segregated from those of other sub-funds as well as from those of the Management Company, and there is no cross-liability among any of them. The Sub-Fund would not be liable if the Management Company or any delegated service provider were to fail or default.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.
